#### + State of charge

It displays the charging status and energy on the screen.

#### + V2C Cloud

Configurable with V2C Cloud, allowing to manage and control the charge.

<b>Output jack configuration</b>	2 Outlets
Input voltage	230 / 400 V <sub>AC</sub>
Input frequency	50/60 Hz
Tolerance	10%
Output power per tap	7,4 - 22 kW
Configurable output current	6-32A
Power control	Mode 3 control PWM, according ISO/IEC 61851
Recharge status	Backlighting LED
Recharge point management software	V2C Cloud OCPP (Optional)
Single-phase type connector	Socket IEC 62196
Load balance between sockets	Incl.
Work environment temperature	-10°C to 50°C

- ✔ **Material: High-strength steel**
- ✔ **Lockable back door**
- ✔ **Image display software included**
- ✔ **Protection degree: IP54/IK10**
- ✔ **Weight: 70 kg**
- ✔ **Front lid: customisable**
- ✔ **Anchorage: 4 points to the ground**
- ✔ **Max. humidity 25°C: 95%**
- ✔ **Dimensions: 198x73,7x14,8 cm**
